Subject/Subject: COMUNICAT NR. 1 / COMMUNICATION NO. 1

Nr. Doc./Doc. No: 3.1

Emis de / *From:* Directorul de Concurs / *Clerk of the Course*

In atentia / *To:* Tuturor concurentilor/echipajelor / *Crew's/teams*

Nr. pagini / Number of pages: 1

- Sambata, 3 februarie 2024, pe probele speciale **PS 3 Mica Sirius scurt, PS 4 Korpas, PS 6 Mica Siriu invers** exista posibilitatea ca echipajele sa primeasca alerte GPS eronate sau proba afisata pe ecran sa nu aiba numarul corect sau numarul real de kilometri parcursi.

In cazul in care planul orar se va schimba si tinand cont de configurarea raliului – **PS 3 Mica Sirius scurt, PS 4 Korpas, PS 6 Mica Siriu invers** – validitatea probelor setate initial pe GPS nu va putea fi respectata. Din cauza ca perioada de timp libera intre probe nu permite configurarea cu noile coordonate si ca semnalului GPS fluctueaza, e posibil ca echipajele sa primeasca alerte eronate.

- *Saturday, February 3, 2024, during special stages SS 3 Mica Sirius scurt, SS 4 Korpas, SS 6 Mica Siriu invers there is a possibility that crews may receive false GPS alerts or the stage displayed on the screen may not have the correct number or the actual number of kilometres covered.*

In case the itinerary changes and taking into account the configuration of the rally - SS 3 Mica Sirius scurt, SS 4 Korpas, SS 6 Mica Siriu invers - the initial coordinates set on the GPS will not be respected. Because the time between special stages does not allow for the new coordinates to be configured and the GPS signal fluctuates, crews may receive erroneous alerts.

Director de concurs / *Clerk of the Course,*
Benedek SANDOR
